

# IMPROVE YOUR STAY IN MÁLAGA

Avoid unexpected punishments or fines, due to your behavior. Law officials and local people are very happy to welcome you in our city, but we take the following rules very seriously. Enjoy Málaga!

1

## Keep the city that welcomes you clean

Use the waste bins, the containers and the other services that Málaga makes available to you.

## Be respectful of heritage

Be careful around historical buildings and other historical or artistic landmarks. Do not leave your mark on the heritage the city has enjoyed for so many centuries.

2

3

## Do not drink alcohol or attract attention while on the street

It is forbidden to drink alcohol on the street. There are no excuses for disrupting scene – not the fine weather, not the excitement of having fun.

## Pavements are for pedestrians

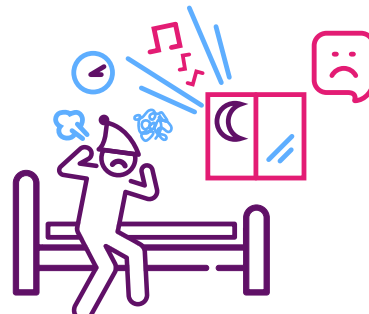

If you choose to ride a scooter – remember they can carry just one person – or a bike, use lanes designated in local ordinances.

4

5

## Real people live in Málaga

Bear in mind that local residents have their own shopping and resting hours, which should not be disrupted. Also, be careful with noise pollution.

## If you are staying for the night...

Avoid party-going or noise-making if you think you may disturb the neighbours in your building or street. Seniors, sick people, students, children, workers... they all need a few hours of rest every day.

6

7

## Use tourist resources wisely

Tourism professionals always do their best to offer world-class services. You can help them by using facilities and resources wisely, so that others coming after you can enjoy them as well.

## Be kind to workers in the tourism industry

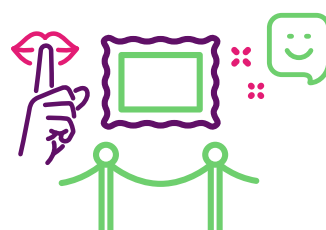

Be sympathetic and kind to workers in the tourism industry: shop assistants, waiters, receptionists, taxi drivers, tourist guides, cleaners... They are all working hard to offer the best possible services.

8

9

## Show appreciation for the places you visit

When you visit a museum, a church or any other building, be quiet, behave yourself and be kind to staff members.

## Explore, support and respect local businesses

Buy local crafts and support local shops. If you attend local events, enjoy them without interfering with the regular course of things.
